

Agreement between The Sea Cadets and Suzuki

Suzuki has agreed a number of areas of cooperation with the Sea Cadets, and have been selected to be our preferred supplier of outboard motors.

Suzuki 4-stroke outboard motors are technologically advanced, compact and fuel-efficient. After extensive research into the range of 4-stroke outboard motors available on the market, it became clear that Suzuki was the brand to go for. Not only do they have excellent products that meet all our requirements but their approach to working in partnership with us has been first class.

Suzuki's agreement with the Sea Cadets includes supplying outboard motors, assisting with Sea Cadets training programmes and giving cadets opportunities to gain experience of careers in the maritime industry.

Units are encouraged to discuss their outboard motor requirements with their local Suzuki dealer who will be able to offer selected outboard models at a preferential rate of 10% off the recommended retail price. In addition to this, every outboard purchased under this scheme will come with extra kill-cords, a 5 year warranty and Suzuki will be working with some selected dealerships to provide a 5 year service contract.

To find your local Dealer or Boat builder go to <http://www.suzuki-marine.co.uk/>
